## Wind Gauge for the Weather Station

### DESCRIPTION

#### PRECISE WIND MEASUREMENT

The Wind Gauge measures the wind's speed and direction. It uses the latest in ultrasound technology to produce extremely accurate measurements. You can configure how you want to be alerted if, for example, the wind reaches a certain speed.

Thanks to the Wind Gauge, you can choose the best time to go sailing, biking, golfing and more.

The Wind Gauge only operates with the Netatmo Weather Station, sold separately.

You can only add 1 Wind Gauge for each Netatmo Weather Station.

Get a precise measurement of the wind's speed and direction.
